

Patient's Rights and Information

When you see Shawn D. Boggs, LMFT, for counseling you are buying a service. Therefore, you need helpful information to make a good decision. Below is important information about my business practices. Always feel free to ask questions for clarity on points that you feel unclear about.

I. SESSION FEE: My fee is \$175 for a 55 minute session. For those who using their Out of Network benefit with their insurance companies, follow this simple process. 1. Call the Customer Service phone number on the back of your insurance card, 2. Ask if you have Out of Network benefits for mental health. 3. If so, then ask what the deductible amount is to be met, what percentage of the visits is paid for, and the address to mail your receipt. You will mail the receipt I give you to your insurance company and they will refund the percentage of your visit in your plan.

II. CANCELLATION/ NO SHOW POLICY: Please be aware and understand that failure to call 24-hours in advance of a scheduled appointment will result in you being billed \$175, barring a reasonable emergency.

III. RECORDS & CONFIDENTIALITY: All of your communication becomes part of the clinical record, which is accessible to you in request. Your therapist will keep confidential anything that is communicated, with the following exceptions: a. you direct or give permission to tell someone else; b. your therapist determines that you are in danger to yourself or others; c. your therapist is ordered by the courts to disclose information; d. your therapist becomes aware of child abuse, elder abuse, or sexual impropriety by a doctor, minister, professional counselor, etc.

IV. DEPOSITIONS AND COURT APPEARANCES: If the therapist is subpoenaed to give deposition regarding the patient, the therapist will charge \$200 an hour. If the therapist is subpoenaed to give testimony in a court appearance, the therapist will charge a \$500 non-refundable retainer and \$200 an hour fee, portal to portal.

V. ABOUT COUNSELING: Counseling is a process that helps individuals, couples and families identify problems, establish goals, and identify pathways for achieving these goals. Counselors are trained to assist patients in changing troublesome and problem causing thoughts, feelings, behaviors, and relationships. Experience and research shows that patients who actively work on their problems both in counseling and outside, and take responsibility for changing their own thoughts, feelings, behaviors, and relationships are more likely to achieve their goals and receive more benefit from counseling than those who do not. As a patient you have the right to refuse to participate in treatment or to terminate treatment at your discretion.

VI. CONTACTING US: This office uses a voice mail system in order to provide patients with 24-hour access. The voice mail is checked many times during the day and evening in case emergencies arise.

This medical practice collects health information about you and stores it in a chart [and on a computer][and in an electronic health record/personal health record]. This is your medical record. The medical record is the property of this medical practice, but the information in the medical record belongs to you. The law permits us to use or disclose your health information for the following purposes:

1. Treatment. We use medical information about you to provide your medical care. We disclose medical information to our employees and others who are involved in providing the care you need. For example, we may share your medical information with other physicians or other health care providers who will provide services that we do not provide. Or we may share this information with a pharmacist who needs it to dispense a prescription to you, or a laboratory that performs a test. We may also disclose medical information to members of your family or others who can help you when you are sick or injured, or after you die.
2. Payment. We use and disclose medical information about you to obtain payment for the services we provide. For example, we give your health plan the information it requires before it will pay us. We may also disclose information to other health care providers to assist them in obtaining payment for services they have provided to you.
3. Health Care Operations. We may use and disclose medical information about you to operate this medical practice. For example, we may use and disclose this information to review and improve the quality of care we provide, or the competence and qualifications of our professional staff. Or we may use and disclose this information to get your health plan to authorize services or referrals. We may also use and disclose this information as necessary for medical reviews, legal services and audits, including fraud and abuse detection and compliance

programs and business planning and management. We may also share your medical information with our "business associates," such as our billing service, that perform administrative services for us. We have a written contract with each of these business associates that contains terms requiring them and their subcontractors to protect the confidentiality and security of your protected health information. We may also share your information with other health care providers, health care clearinghouses or health plans that have a relationship with you, when they request this information to help them with their quality assessment and improvement activities, their patient-safety activities, their population-based efforts to improve health or reduce health care costs, their protocol development, case management or care-coordination activities, their review of competence, qualifications and performance of health care professionals, their training programs, their accreditation, certification or licensing activities, or their health care fraud and abuse detection and compliance efforts

6. Notification and Communication With Family. We may disclose your health information to notify or assist in notifying a family member, your personal representative or another person responsible for your care about your location, your general condition or, unless you had instructed us otherwise, in the event of your death. In the event of a disaster, we may disclose information to a relief organization so that they may coordinate these notification efforts. We may also disclose information to someone who is involved with your care or helps pay for your care. If you are able and available to agree or object, we will give you the opportunity to object prior to making these disclosures, although we may disclose this information in a disaster even over your objection if we believe it is necessary to respond to the emergency circumstances. If you are unable or unavailable to agree or object, our health professionals will use their best judgment in communication with your family and others.

7. Marketing. Provided we do not receive any payment for making these communications, we may contact you to give you information about products or services related to your treatment, case management or care coordination, or to direct or recommend other treatments, therapies, health care providers or settings of care that may be of interest to you. We may similarly describe products or services provided by this practice and tell you which health plans this practice participates in. We may also encourage you to maintain a healthy lifestyle and get recommended tests, participate in a disease management program, provide you with small gifts, tell you about government sponsored health programs or encourage you to purchase a product or service when we see you, for which we may be paid. Finally, we may receive compensation which covers our cost of reminding you to take and refill your

medication, or otherwise communicate about a drug or biologic that is currently prescribed for you. We will not otherwise use or disclose your medical information for marketing purposes or accept any payment for other marketing communications without your prior written authorization. The authorization will disclose whether we receive any compensation for any marketing activity you authorize, and we will stop any future marketing activity to the extent you revoke that authorization.

8. Sale of Health Information. We will not sell your health information without your prior written authorization. The authorization will disclose that we will receive compensation for your health information if you authorize us to sell it, and we will stop any future sales of your information to the extent that you revoke that authorization.

When we report suspected elder or dependent adult abuse or domestic violence, we will inform you or your personal representative promptly unless in our best professional judgment, we believe the notification would place you at risk of serious harm or would require informing a personal representative we believe is responsible for the abuse or harm.

11. Health Oversight Activities. We may, and are sometimes required by law, to disclose your health information to health oversight agencies during the course of audits, investigations, inspections, licensure and other proceedings, subject to the limitations imposed by law.

17. Workers' Compensation. We may disclose your health information as necessary to comply with workers' compensation laws. For example, to the extent your care is covered by workers' compensation, we will make periodic reports to your employer about your condition. We are also required by law to report cases of occupational injury or occupational illness to the employer or workers' compensation insurer.

18. Change of Ownership. In the event that this medical practice is sold or merged with another organization, your health information/record will become the property of the new owner, although you will maintain the right to request that copies of your health information be transferred to another physician or medical group.

19. Breach Notification. In the case of a breach of unsecured protected health information, we will notify you as required by law. If you have provided us with a current e-mail address, we may use e-mail to communicate information related to the breach. In some circumstances our business associate may provide the notification. We may also provide notification by other methods as appropriate. [Note: Only use e-mail notification if you are certain it will not contain PHI and it will not disclose inappropriate information. For example if your e-mail address is "digestivediseaseassociates.com" an e-mail sent with this address could, if intercepted, identify the patient and their condition.]

20. Psychotherapy Notes. We will not use or disclose your psychotherapy notes without your prior written authorization except for the following: 1) use by the originator of the notes for your treatment, 2) for training our staff, students and other trainees, 3) to defend ourselves if you sue us or bring some other legal proceeding, 4) if the law requires us to disclose the information to you or the Secretary of HHS or for some other reason, 5) in response to health oversight activities concerning your psychotherapist, 6) to avert a serious and imminent threat to health or safety, or 7) to the coroner or medical examiner after you die. To the extent you revoke an authorization to use or disclose your psychotherapy notes, we will stop using or disclosing these notes.

21. Research. We may disclose your health information to researchers conducting research with respect to which your written authorization is not required as approved by an Institutional Review Board or privacy board, in compliance with governing law.

22. Fundraising. We may use or disclose your demographic information in order to contact you for our fundraising activities. For example, we may use the dates that you received treatment, the department of service, your treating physician, outcome information and health insurance status to identify individuals that may be interested in participating in fundraising activities. If you do not want to receive these materials, notify the Privacy Officer listed at the top of this Notice of Privacy Practices and we will stop any further fundraising communications. We may deny your request under limited

circumstances. If we deny your request to access your child's records or the records of an incapacitated adult you are representing because we believe allowing access would be reasonably likely to cause substantial harm to the patient, you will have a right to appeal our decision. If we deny your request to access your psychotherapy notes, you will have the right to have them transferred to another mental health professional.
